HONDA COOKIE POLICY (BE)

We inform you that when you use the websites www.hondamotoreurolistics.com, <http://www.jobs.hondamotoreurolistics.com> and <http://www.honda-engines-eu.com> (hereinafter jointly and separately referred to as the “Website”), Honda Motor Europe Logistics NV may, insofar as you have consented, place cookies on your PC, laptop and/or mobile device. The cookies that may be placed are necessary cookies, functional cookies and/or analytical cookies.

These cookies are used to enable you to use the Website and, where you have consented, to analyse your visit and use so that we can improve the Website and our services. If you do not want cookies to be placed on your PC, laptop and/or mobile device, we recommend that you do not use this website or these websites.

Below you will find further information about what cookies are and which necessary, functional and analytical cookies are used.

What is a cookie?

We use cookies on this Website. A cookie is a small, simple file that is sent together with pages of this Website and stored by your browser on your computer’s hard drive. The information stored in it may be sent back to our servers on a subsequent visit.

Cookies may be placed by the server of the website you are visiting or by partners of that website. A website server can only read the cookies it has placed itself and has no access to other information on your computer or mobile device. Cookies are stored in a specific folder of your browser on your computer or mobile device. A cookie usually contains the name of the server that placed the cookie, an expiry date and a unique numerical code. Information stored by a cookie may contain personal data, such as your IP address.

Cookies generally make interaction between the visitor and the Website faster and easier and help the visitor navigate between different parts of the Website. Cookies may also be used to make the content or advertisements on a website more relevant to the visitor and to tailor them to the visitor’s personal preferences and needs.

Managing cookies

Before we place cookies (except necessary cookies), we ask for your consent. You can give your consent by clicking the relevant button in the cookie banner.

Most browsers are set by default to accept the cookies used on our Website. However, you can adjust your browser settings to disable these cookies. If you disable cookies, some parts of the Website may not display correctly or certain applications may not be available.

You may request access to, rectification or erasure of your personal data, the transfer of your personal data, or restriction of processing, and you may object to the processing of your personal data. Please see our contact page. To prevent misuse, we may ask you to provide appropriate proof of identity. Where your request for access concerns personal data linked to a cookie, you must send a copy of the cookie concerned. You can find this in your browser settings.

With whom do we share your personal data?

We may share your personal data with other entities belonging to the Honda group. In addition, we may engage third parties to process your personal data for the purposes described in this Cookie Policy, for example:

- a) to provide you with our Website (such as a hosting provider); or
- b) to provide you with our advertisements, newsletters or updates (such as a marketing agency).

These third parties may only process your personal data in accordance with our instructions. We also ensure that all such third parties are selected with due care and undertake to maintain the security and integrity of your personal data.
